

BEVELLING • CHAMFERING • RADIUS CHAMFERING

Small & versatile chamfering and radius chamfering tool – **Immediate PAY-BACK**

Ideal for internal contours: holes, oblong holes, slots, cut outs (down to 8 mm Ø!) on cleats, plates & profiles
Indispensable where edges need to have a defined and even radius to comply with coating spec's – MINING, ARCHITECTURAL.....

- one hand operation, quick and easy, one touch adjustment
- 45 degree chamfer / R 2 mm radius
- long lasting tungsten carbide cutting inserts
- also widely used for deburring and chamfering of machined components

Saves hours of tedious, manual work and costly time!

- **Quick & Easy Setting** - patented unique controller
- **Precise Adjustment** – precise depth adjustment (patented)
- **Solution** - developed from over 40 years fabricating experience

Patents : 18 countries with 13 patents (like Vietnam, Taiwan, China, India, USA, EU, etc.)

Full range of hand tools including “special” application tools available

GT-100B plate / contour beveller

Radius bevelling

GTW-2100 weld preparation beveller

Pipe bevelling

Radius beveller

Edge bevelling in S/S

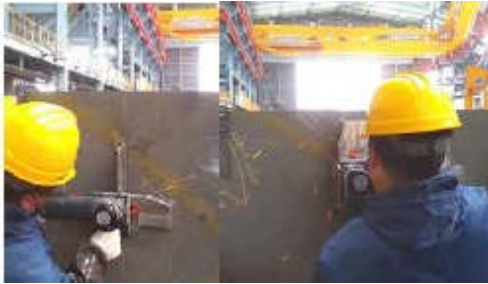

SPECIAL APPLICATION MACHINES

Lug removal in Ship Building, Off-shore and Heavy Industry

Cost savings:

Lugs can be reused, no need for gas, very fast, no heat on painted surfaces, no grinding dust, easy to manage chips, always level surface, light weight

Weld bead shaving GTB

- **GTB models** are designed for removal of weld bead on horizontal and vertical beads
- **No heat-generation : important factor for shipbuilding industry (painting or coating)**
- Easy to carry (Light and portable machines)
- Fast shaving speed & clean surface
- Quick & accurate cutting height adjustment

Removing weld bead and a stiffener on wall (vertical work) »

« Removing weld bead and stiffener on floor

Robust, durable & cost effective counter sinks for quick chamfering with hand tools or drill press

from special steel & with special coating

MADE to last!

TRY OUR: Bio-degradable, water soluble, solvent - and odour free WELD PROTECTION Pre-mixed or in concentrate
